Let's Make Santa's Servers Go Down

(to the tune of "Santa Claus is Coming to Town")

He let down his guard,
He didn't stay keen,
He hasn't upgraded since twenty-thirteen
Let's make Santa's servers go down

We'll send him a loaded overflow ping,
See what info the answer might bring
Let's make Santa's servers go down

Oh, no more gifts in stockings,
And no more magic sleigh,
I've had it with the Christmas fever, it's time to make things break!

I've written the worm,
I've herded the bots,
They're gonna take all the client thread slots
Let's make Santa's servers go down

[instrumental break]

I'm in the parents' portal
To send in a concern
Quote semicolon `DROP TABLE NAUGHTYNICE` and hit return

We're in the mainframe
He doesn't know how!
Norton AV ain't cuttin' it now
Let's make Santa's servers go down
